Bishop Hennessy Laid Corner Stone of St. Marks Church

ASSISTED BY OLD RESIDENT

Be Completed by Jan. 1

Yesterday was a gala day at the little own of St. Marks north-west of Wichita when the catholic church at that point was started by Biehop Hennessey laying the corner stone for the magnificent building to be constructed from the maerial of the old watch factory in this

Bishop Hennessey and the ministers of this city drove to St. Marks yesterday morning. They were met two miles this side of the town by about sixty men on horseback who escorted the party to the town and the church lot where the servi-

Marcus Shafer the first resident of the own was present. The town was named n his honor and the church did him the honor of asking him to assist Bishop Hennessey in laying the corner stone. Bishop Hennessey performed the services assisted by twelve members of the ministry of the Catholic church and together with Mr. Shafer put the corner stone

The event was a holiday with almost everyone in the town and surrounding country. It is a German neighborhood and nearly all of the residents are memhers of the Catholic church. Almost every every member of the church was present

After the corner stone was laid Rev. Father Epp of Andale preached the dedcatory sermon followed by the solemn high mass. Bishop Hennessey confirmed twenty-eight candidates.

The St. Marks Catholic cathedral when empleted will be one of the finest edifices in the country. Its dimensions are 65 by 165 feet, built entirely of stone and will cost when completed about thirty thousand dollars. The drawings show it to be a massive and beautiful structure. Rev. Schmiehausen has been the priest at this church for twenty years and it was through his efforts that the material was purchased for the new building.

Years ago a company was organized to make Wichita watches and a fine stone structure was erected on the west side. An engine house was built and a boiler building but that was as far as the company were able to go. For years this building stood, visible for miles, in either direction.

St. Marks determined to build a cathepopular Otte Weiss. The business meet- drai and purchased the watch factory ing was followed by a social good time, building for a paltry sum compared with Refreshments of ice cream and cake were its original cost. The building was torn served. The following are the officers down and one day many men with teams this city and surrounding country at- sights. tended and assisted in laying the corner stone for the cathedral. It is expected the first of next January

The "quantity" kind of cigar factory—is the cause of the plentiful straw-tasting 5 cent cigars. They are an insult to your intelligence. They're pushed on the idea that a man who buys a 5 cent cigar is a lowliver anyhow; that he is too ignorant to know quality. As a fact, 5 cents ought to purchase a smoke fit for a king. It was to give a recognized fine quality that the effort of Bondy & Lederer was so earnest. They transplanted Vuelta sprouts from Cuba, raised the right kind of leaf, escaped duties, and have a 5 cent product which don't insult a smoker-no matter what his means. Tom Keene is the brand in which this stock is being used. It gives you the satisfying, pleasant fine taste and fragrance of a cracking good cigar.
